

# Geami WrapPak<sup>®</sup> EX

Portable packing,  
perfect presentation

## Presentation

Perfect in-the-box presentation enhances the customer unboxing experience

## Time savings

Material can be created on demand in any location

## Cost effective

Less material is needed to provide optimal protection

## Wrap your products for a perfect presentation

Geami WrapPak ExBox (EX) is a self contained, disposable and recycleable combination of die cut kraft paper and tissue interleaf that is used to cushion and protect fragile items during shipment. The Geami WrapPak EX expands the paper into a 3D honeycomb structure, providing a unique and environmentally friendly wrapping product. The small footprint of the Geami WrapPak EX allows it to be placed on any table top or packing area, providing 750' of finished wrapping material.

## Go Green

Our company works with FSC and SFI certified suppliers. Paper is a recyclable and a renewable source.

## Our Added Value

### Packaging Engineering

Ranpak will analyze your current packaging solution and perform a drop test, demonstrating how much shock is transmitted to your products through the packaging. Ranpak then suggests proper packaging techniques to improve protection and save costs.

### Integrated Applications

The Ranpak Custom Engineering department can design modifications, customizations and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

### Packaging Training

Training from our packaging experts can help your packers use up to 20% less packing material without compromising the quality of the packaging.

## Successful in these industries

Cosmetics	Housewares	Food/Beverage	Pharmaceuticals
Electronics	Glassware	e-Commerce	Logistics
