

# Geami® WrapPak® HV

## Motorized wrapping system for high-volume packaging environments

**Geami® WrapPak® HV** creates protective packaging materials on demand, right at your packing station. The electronically operated converter automatically expands diecut kraft paper into a 3D honeycomb structure, while combining it with a tissue interleaf paper. This patented process converts the environmentally-friendly papers into secure packaging that prevents damage.

**Geami® WrapPak® HV** is perfect for e-commerce environments, as its main objective is to maximize packing throughput while offering customers an exciting unboxing experience. It significantly improves wrapping speed and overall productivity, and can be placed at any packing station where individual items require a protective wrap.

<p><b>Superior Protection</b></p>  <p>Unique honeycomb technology cushions and protects products</p>	<p><b>Increased Productivity</b></p>  <p>High-speed wrap and pack with minimal paper reloading</p>	<p><b>100% Sustainable</b></p>  <p>Curbside recyclable, biodegradable, and entirely paper based.</p>
---	---	---

### Geami® WrapPak® HV

- Electrically operated converter, improves wrapping speed and overall packing throughput.
- Motorized converter creates consistent and reliable wrapping material that replaces 3/16" bubble cushion.
- Dispenses up to 30" per second.
- No cutting or taping.
- On-demand system reduces storage, handling, and transport costs due to the small pre-pack dimensions.

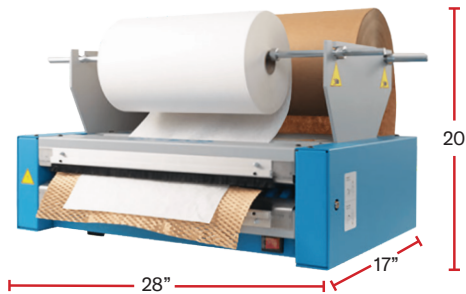

# Protection with Style

The Geami® WrapPak® HV surpasses traditional packing solutions. It delivers a strong, sustainable, shock-absorbent paper alternative to traditional bubble, that offers superior cushioning and protection.

In addition, Geami WrapPak's attractive interleaf layer enhances branding. A variety of color papers\*, custom-printed logos or designs can be used, resulting in an outstanding in-the-box presentation and unpacking experience.

# Geami® WrapPak® HV Superior Packing Performance

### Converter Only (Table Top)

Part #
SW5004.1_US

### Specifications:

- Dimensions: 28" x 20" x 17"
- Weight: 70 lbs.
- Voltage: 120 Watt
- Power: 320 Watt
- Speed: Up to 30" per second
- Cut Method: Manual Tear

### Integrated Table Center Feed

### Integrated Table

Part #	Kit Description
SW5004-i.1	HV with retrofit kit for existing tables

SW5004-i.2	HV with adapter kit for new tables (Order with one of the table configurations below)
------------	---

Part #	Table Description
KA-0728	Center-Feed*
KA-0743	Left-Feed*
KA-0748	Right-Feed*

\*HV Machine Not Included

### Caddy with 45 degree HV

### Universal Caddy

Part #	Description
KS-0316	No packing surface (goes under an existing packing table).
KS-0317	HV at 90 degree. Height-adjustable packing surface included.
KS-0318	HV at 45 degree. Height-adjustable packing surface included.

### Paper Specifications

Part number	Description	Color	Roll Length	Paper Width	Roll Weight	Skid Qty.
SVK501000	50# 3/16" Die Cut	Brown	1,000' (1680' expanded)	20" (14" expanded)	22 lbs.	40
SVW501000		White				
153311WS	15# Interleaf Tissue	White (other colors available)	3,360'	12"	12.25 lbs.	80
SVK20142010S	Mixed skid	Brown die cut/white tissue		-		20 die cut + 10 tissue

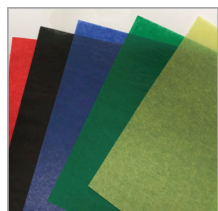

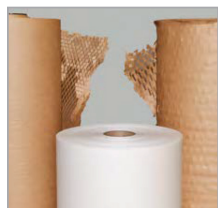

### 15# Standard Tissue Colors Available

Part Number	Color	Skid Qty.	Roll Width	Roll Length
C00213360S	Red	80	12"	3,360'
C00233360S	Green	80	12"	3,360'
C00253360S	Blue	80	12"	3,360'
C00273360S	Pistachio	80	12"	3,360'
C00293360S	Black	80	12"	3,360'
C00243360S	Pink	80	12"	3,360'

6 colors in stock are available in 15# Standard Tissue  
70 color options are also available and can be special ordered (4 wk. lead time) in 10# Lighter Tissue

Tissue Paper can be printed with custom artwork.
