

# FillPak

## Trident™

FillPak Trident™ is an innovative, highly efficient packaging solution for medium and high volume shippers such as e-commerce hubs, fulfillment and distribution centers. Using only recyclable paper as the packing product, Trident delivers a 20% or greater reduction in paper usage from other paper-based machines and can eliminate the use of plastic based void fill products such as air bags.

### Cost Efficient

Potentially reduce your overall material usage by 20% or more

### Optimal Protection

Enhanced product protection during all transit modes

### Labor Savings

Packout time with Trident considerably less compared to airbags

### Versatile

Multiple applications including void-fill and blocking and bracing

## A **paradigm shift** in protective paper packaging

### Go Green

Our company works with FSC and SFI certified suppliers. Paper is 100% compostable, 100% biodegradable, and 100% curbside recyclable.

## Specifications of the system

### Converter

- Dimensions: 24" x 43" x 64"
- Weight: 182 lbs.
- Power: 100-240 VAC
- Feed Rate: Up to 96" per second
- Cut Method: Automatic
- Part Number: FPTD00.1

### Paper

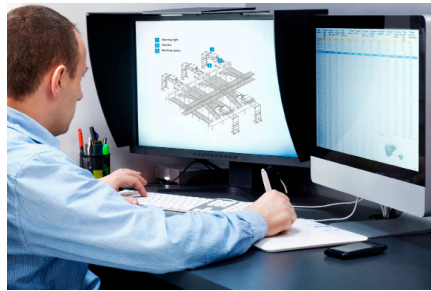

- Paper Options: 45#, 55#
- Bundle Width: 15"
- Bundle Weight: 24 lbs

## Our Added value

### Packaging Engineering

Ranpak analyzes your current packaging solution. The drop test shows exactly how much shock is transmitted to your products through the packaging. Ranpak then suggests alternatives how to improve protection or save costs.

### Custom Engineering Department

The Custom Engineering department can design structures, frames and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

### Packaging Training

Training from our packaging experts will help your packers to use up to 20% less packing material, without compromising the quality of the packaging.

## Successful in these industries
