

PadPak® Auto-Coiler

Efficient, Sustainable Solution for Heavy Cushioning

PadPak® Auto-Coiler is the ultimate heavy cushioning solution for your dense, fragile, high-value products. This technology forms Ranpak's patented paper pads into a coil design for a sustainable, extreme performance cushioning product.

Auto-Coiler features two touchscreen control panels for easy access from any position in the pack station, and five modes to fully customize pad and coil production. With a range of basis weights and coil density selection, **Auto-Coiler** makes it easy to find the exact configuration for your packaging needs. It's a sustainable solution to protect fragile goods that also improves efficiency through decreased waste and increased throughput.

PadPak® Auto-Coiler

- Proven, reliable performance of the paper pads can rid your operations of environmentally harmful packaging products like plastic and foam, while decreasing your damage rate.
- Create pads and rolls at the touch of a button with an intuitive, user-friendly touchscreen interface. Lengths, densities and quantities are clearly displayed to eliminate guesswork and increase throughput per shift.

Superior Performance

Dense spiral configuration protects even the heaviest goods

Cost Efficient

Paper is an effective high yield solution that decreases waste

Eco-Friendly

Sustainable, curbside recyclable and biodegradable

Ranpak®

Deliver a Better World™

Expert Support. Custom Solution.

The Ranpak team is highly skilled in helping to find the ideal paper solution to protect your heavy, fragile and high-value goods. The Sales and Package Engineering team will provide valuable insight into pack designs and performance testing to recommend the proper paper basis weights and operation modes.

PadPak® Auto-Coiler

The Auto-Coiler attachment is only compatible with the PadPak® SR at this time.

PadPak® SR

Specifications

	Auto-Coiler Attachment	Auto-Coiler + SR Converter
Dimensions:	L 39" x W 45" x H 69" (height is variable)	L 92" x W 45.5" x H 71" (height is variable)
Weight:	212 lbs	495 lbs
Power:	120 VAC/6A	120 VAC/20A
Feed Rate:	16" per second	16" per second

30" Wide Paper

Description	2-Ply 30/30	2-Ply 30/50	2-Ply 50/50	3-Ply 30/30/30	3-Ply 30/50/30
Regular	—	450' L	450' L	450' L	450' L
Double	900' L	900' L	900' L	900' L	900' L
Jumbo	1,350' L	1,350' L	1,350' L	1,350' L	1,350' L
Jumbo Adhesive	1,350' L	1,350' L	1,350' L	—	1,350' L

Easy Operation

Detachable control box

Produce same size coils every time

Customize detailed packaging sequences

Switch from pads to coils with the touch of a button

Optimal Performance

Wide range of density selections

The **Auto-Coiler** has a wide range of approved paper basis weight combinations to configure to heavy or extreme cushioning requirements. Additionally, you will have the control of how dense your coils are created to have an even further level of customization.

Go Green
with Sustainable
Packaging

All of our paper suppliers are FSC and/or SFI certified. Using paper that is curbside recyclable & biodegradable, Ranpak offers a complete paper-based delivery method that is more sustainable than alternatives.

At Ranpak, what's good for the environment is also good for business and the bottom line.
